Available in customized sizes.
 Screen housing available also
 in black colour (optional)

Screen Int Cine Pro

The Cine Pro is a large dimension electrical
 Screen available from 8mt. up to 12mt. of width.

Cine Pro is the best choice for cinemas, theatres or
 auditoriums.

It assures the possibility to join the need to have
 projections and the alternative to play a

Performance on a stage.

The Cine Pro structure is equipped with an aluminium
 tube which is, at the same time, rolling pipe and
 bottom bar.

The capstan electric motor unit (the heart of the
 system) which is located in the middle of the
 structure, transmits, by the steel cables, the rotation of
 the winding pipe determining the rise or the descent of
 the cloth in a quiet and safe way.

The Screen Int. R&D department has developed a new and unique SAFETY SYSTEM that prevents eventual rolling
 down of the aluminium tube, in case of accidental failure of the motor or of the steel cables or of the cloth.
